

Masters FINANCE

ISEG has a long tradition and experience in teaching Finance, and many Portuguese business leaders and well-known political and economic decision makers an former its graduates. Since 1911, ISEG has adapted its teaching and research to the evolution of markets and the economy, and has also accompanied advances in the scientific knowledge of Finance.

Presentation:

In this Masters, we combine the professional experience of some of the lecturers with the scientific discipline of many others who hold Doctorates from prestigious universities (such as the London Business School, Manchester Business School, Carnegie- Mellon University, The London School of Economics, The Stockholm School of Economics, or Imperial College, London).

The Masters in Finance at ISEG offers a solid education in the three pillars of the discipline: Corporate Finance, Financial Investments, and Derivatives. Students enrolled in this degree also have the opportunity to choose from a wide list of electives, with genuine variety, and, as a result, our graduates are better prepared for the job market. Furthermore, our new study programme closely follows the requirements of the CFA Institute.

We target students with a Bachelors degree in Management, Economics or any other subject that has a solid quantitative background, who are eager to learn more about finance and who have aspirations to become successful professionals in the financial world, either with financial institutions or in the corporate sector, all around the world. Recent innovations include a field trip to an European financial centre. As an example, in the last few years, the Masters in Finance group travelled to Frankfurt during the 1st Year of the program, including visits to the European Central Bank, the Deutsche Borse, EIOPA, Deutsche Bank and Goethe University, all of which expose students to the professional reality of one of the most influential financial centres of Europe.

The Masters in Finance is taught exclusively in English, for an international audience.
