

Masters in Monetary and Financial Economics

Open minds for a better world

7 reasons why

Masters in

Monetary and

Financial Economics

@ISEG Lisbon

Located in the center of Lisbon, ISEG has a long tradition and experience in research and teaching in **Economics and in Finance**. The **MASTERS IN MONETARY AND FINANCIAL ECONOMICS** is intended to complement and to deepen a Bachelor's in Economics or Finance. Students learn how to analyse problems in a rigorous and constructive way, and to use advanced empirical and theoretical tools in Economics and Finance.

"The Master's in Monetary and Financial Economics was a valuable experience of my academic life. The programme itself is organized in such manner that provides you a broader knowledge of Economics and Finance. Since it is mostly a theoretical programme, it's challenging and requires more dedication. In my opinion one of the key features of the course as an international student was the outstanding support of the professors, coordinators and colleagues during my study."

MINA KAZEMI Regulatory Reporting Officer

BNP Paribas

01

Prepares senior staff in monetary and financial institutions linked to financing of the economy and to monetary policy issues.

04

Classes with around 1/3 international students.

06
