Masters *in* **Economics**

*Open minds
for a better world*

Located in the centre of Lisbon, **ISEG** has a long tradition and experience in research and teaching in economics. The **MASTER in ECONOMICS** program complements and builds on the knowledge gained with a Bachelor's degree in Economics. The main objectives are to provide students with advanced knowledge in economic theory and in the methods and empirical techniques that are used to analyse economic reality.

"From the day I received my acceptance letter to the Master in Economics at ISEG, all I have experienced is positive. Combined with the beautiful city of Lisbon, ISEG would definitely be my first choice for masters every time"
