Career Forum 2026: connections that inspire with a humanistic touch

The Career Forum is back! On **March 25th**, IGEO will welcome over 30 companies and more than 1,000 students.

Over the past few years, the Career Forum has become one of the most anticipated moments in the academic calendar, bringing together students, companies, and professionals in a space designed to foster meaningful connections.

This year, the theme is **"Connections that inspire"**, and it reflects exactly what we want to do: create opportunities for people to meet, exchange ideas, and build relationships that can go beyond a single day.

A Reception with Impact

The Career Forum kicks off with a reception at the Ordem dos Economistas, where students will have the chance to network in a more relaxed setting with professionals from different companies and sectors.

A Programme Built Around Connection

On the day of the event, students can expect a full programme that includes:

- **Company Fair Stands:** Interact directly with recruiters from companies looking for talent.
- **Panel Discussions:** Hear from professionals about their career paths, challenges, and advice for those starting out.
- **Workshops:** Practical sessions to help you improve your CV, LinkedIn profile, and interview skills.
- **Networking Sessions:** Structured moments to meet professionals in smaller groups.

Two ways to register, two main opportunities
