NEW FACULTY'S PROGRAMME

MAEG

Applied Mathematics for Economics and Management

OPINIÃO

Issue #26 | 2025

In this week's edition of the newsletter, these are the main highlights:

- Opinião: Joint Statement from Leaders of the Faculties of Economics of the Nation's Capital
- ISEG welcomes its coordinators in Applied Mathematics for Economics and Management Master's degrees (MMAEG)
- Inauguration of the Teaching Year and Opening Session of the Academic Year
- Conference on Regulation
- Research at ISEG: Professor Carla Conceição and ISEG Living Lab
- ISEG Research Seminars' 26 | Mathfi Doctoral Seminars
- Alumni in the Spotlight: Invest Eurotrónica Solidarity Programme | Applications Now Open
- Universidade de Lisboa: Universidade de Lisboa accounts for 20% of Portugal's scientists ranked in the world's top 2%
- Universidade de Lisboa Christmas Mixtape 2026

Opinião

In this week's edition of the newsletter, there are five main highlights:

- Opinião: Joint Statement from Leaders of the Faculties of Economics of the Nation's Capital
- ISEG welcomes its coordinators in Applied Mathematics for Economics and Management Master's degrees (MMAEG)
- Inauguration of the Teaching Year and Opening Session of the Academic Year
- Conference on Regulation
- Research at ISEG: Professor Carla Conceição and ISEG Living Lab

José Gaivão
Coordinator of the new Master's in Applied Mathematics for Economics and Management (MMAEG)

Raquel Bernardino
Coordinator of the new Master's in Applied Mathematics for Economics and Management (MMAEG)

Rui Pedro
Coordinator of the new Master's in Applied Mathematics for Economics and Management (MMAEG)

Leading the future with Mathematics: discover ISEG's new Master's degree

But what, after all, is the point of maths? Anyone who teaches maths has heard this question countless times. Students ask it, parents ask it, and sometimes we ask it ourselves. Why do we need to learn this? Why do we have to study it? And why do we have to be tested on it when we don't know if we'll ever use it?

The answer is simple: we use it every day, even when we don't realise it. Mathematics is the language that helps us understand the world around us, from the most basic to the most complex. It's the invisible thread that connects everything.

Mathematics is the foundation of all technologies we use in our daily lives, from the most basic to the most sophisticated. Without it, there would be no computers, no smartphones, no modern medicine, no engineering solutions and, of course, no artificial intelligence.

Taught entirely in English, which contributes to international dimension, the MMAEG is aimed at graduates in Mathematics, Engineering, Economics, Management and Data Science, and lasts 3 semesters. It is organised in 3 specialisations: Financial Mathematics, Data Science and Operational Research, and Actuarial Science. The first classes will take place on Thursday 26 November at 6.30 pm (date to be confirmed).

The application period runs from 1 December 2025 to 15 January 2026. For more information, visit the MMAEG website.

ISEG welcomes its coordinators in Applied Mathematics for Economics and Management with a new international Master's degree

ISEG – School of Economics and Management has welcomed the launch of the new Master's in Applied Mathematics for Economics and Management (MMAEG), a 3-semester programme fully taught in English, which will start in November 2026. The first classes will take place on Thursday 26 November at 6.30 pm.

Leading these ceremonies, appointed to the MMAEG's PhD coordinator, José Gaivão, Professor at ISEG's Department of Mathematics, and Raquel Bernardino, Professor at ISEG's Department of Economics, who will be co-coordinating the new Master's degree. These structure enables the programme to be tailored to each specialisation, ensuring a more in-depth approach to the subjects that are most relevant to each student's academic and professional goals.

The structure enables the programme to be tailored to each specialisation, ensuring a more in-depth approach to the subjects that are most relevant to each student's academic and professional goals.

Presentation sessions in November

To raise awareness of the new Master's programme, its curriculum and the academic and professional opportunities it offers, ISEG will be organising presentation sessions in November, open to students from other courses and universities, as well as to the general public.

The application period runs from 1 December 2025 to 15 January 2026. For more information, visit the MMAEG website.

Participation is free of charge, subject to prior registration via this link.

What's Up @ ISEG

Formal Session for the Opening of the 2026-2027 Academic Year

ISEG is hosting the Formal Session for the Opening of the 2026-2027 Academic Year, an event that will include the presentation of awards for the achievements of the academic community.

The ceremony will feature a keynote address by Professor **Carlos Carreira Rodrigues**, on the theme "Mathematics and Economics: Intersections and Challenges", followed by the presentation of awards.

The programme includes institutional addresses, the presentation of scholarships and awards for the best students and the awards to the recipients of ISEG's academic and professional awards.

Date: 12 December, from 5.45 pm to 7.15 pm
Venue: ISEG - Main Building, Auditorium

The session can also be watched live on ISEG's YouTube channel.

PhD Open Days 2026

ISEG is organising the **PhD Open Days 2026** from 17 to 20 November, an online event dedicated to those who are considering doing a PhD at ISEG.

Over the course of four days, participants will have the opportunity to learn about the doctoral programmes on offer, the research areas of ISEG's departments and the application process, as well as the scholarships and financial support available.

The sessions will provide an opportunity to ask the coordinators teams questions directly, helping candidates to clarify their doubts and choose the programme that best suits their academic and professional goals.

Date: 17-20 November, at 5.30 pm
Venue: Online

Participation is free of charge, subject to prior registration.

Conference on AI Readiness

On **17 November, ISEG will host the "AI Readiness"** conference in the ISEG Auditorium, bringing together leaders from the public and private sectors to discuss the challenges and opportunities of artificial intelligence.

The event will feature the presentation of the findings from the National Study on AI Readiness, conducted by Nova SBE and Nova IMS, and a panel discussion on the theme "Technology & Value".

Date: 17 November, from 9.30 am to 1.00 pm
Venue: ISEG, ISEG Auditorium (Quelhas Building)

Attendance is free.

Practical Mindfulness and Chi Kung Workshop

ISEG is organising another edition of the **Practical Mindfulness and Chi Kung** workshop, led by Professor **Ana Rita Cruz**, on 19 November, in the ISEG Auditorium, as a way to promote well-being and mindfulness practices in academic management strategies.

The workshop will combine theory and practice through mindfulness meditation, Chi Kung and breathing techniques, aimed at helping participants to manage stress and improve their quality of life.

Date: 19 November, from 5.30 pm to 7.15 pm
Venue: ISEG, Hedging

Participation is free of charge.

For further information and registration here

Educational Surveys – 1st semester 2026/27

ISEG is organising the educational surveys for the 1st semester of 2026/27, which will be available from 17 November to 23 December. The surveys will be available on the Fénix platform.

The aim is to collect students' opinions on the quality of the teaching and learning process, as well as on the quality of the academic services provided. The results will be used to identify areas for improvement and to implement measures to improve the quality of teaching.

All undergraduate students are invited to complete the surveys for the courses in which they are enrolled during the current semester.

Research at ISEG

Professor Carla Conceição honoured internationally by Springer Nature

Professor **Carla Conceição**, a lecturer at ISEG – Lisbon School of Economics & Management, has been appointed to the Editorial Board of **SPRI Living Labs**, a journal **Research as part of the ISEG Division of Innovative Projects** for the communication to the publication of scientific publishing dedicated to the.

The journal, published by Springer Nature, aims to publish research that contributes to the difference in publishing dedicated to the scientific publication process, and to the dissemination of scientific knowledge. The journal is also dedicated to the publication of research that contributes to the scientific publication process, and to the dissemination of scientific knowledge.

Management Review (Quarter) 2021 is an international scientific journal dedicated to the publication of research that contributes to the scientific publication process, and to the dissemination of scientific knowledge.

Those awards recognise Professor Carla Conceição's contribution to the quality and integrity of scientific publishing, as well as her dedication to the dissemination of scientific knowledge. The journal is also dedicated to the publication of research that contributes to the scientific publication process, and to the dissemination of scientific knowledge.

Congratulations to Professor Carla Conceição on these honours!

Social mapping techniques applied to participatory assessment: a look at sustainability on the ISEG campus

As part of the **MOBIFlash project, ISEG is hosting** the second "Social mapping techniques applied to participatory assessment: a look at sustainability on the ISEG campus" workshop, aimed at students, teachers and non-teaching staff.

The event will feature **Isabel Santos**, Professor and Coordinator of the Postgraduate in Social Intervention and Development at the Faculty of Psychology and Educational Sciences of the University of Coimbra, as the guest speaker.

The session aims to explore the application of social mapping techniques to participatory assessment, with a focus on sustainability on the ISEG campus.

Date: 3 December, from 2.30 pm to 4.30
Venue: ISEG, Hedging

ISEG Development Studies Seminars 2026/2027 | Urbanisation and development in Africa

The next session of the **Development Studies Seminars 2026/2027** will be dedicated to the theme "Urbanisation and development in Africa", and will be held in Portuguese.

The session will feature **Sónia Amaral**, a researcher at the Centre for Geographical Studies, who will discuss urban challenges in the context of urbanisation in Africa, with a particular focus on Angola, Mozambique and Cape Verde, and the role of urban governance in development.

Date: 11 December, from 5.30 pm to 7.00 pm
Venue: ISEG, Sonia Brito's Annex Building (Quelhas Building)

Attendance is free.

For further information here

ISEG Research Seminars '26 | Mathfi Doctoral Seminars

ISEG is organising another session of the **ISEG Research Seminars 2026, which will** feature the Mathfi Doctoral Seminars.

The event will feature two sessions, each lasting 45 minutes, bringing together researchers and doctoral students in the field of Mathematical Finance, who will present their work and engage in discussion with the audience.

Date: 12 December, from 2.30 pm to 3.45 pm
Venue: ISEG, Lecture Theatre 1 (Quelhas Building)
